

Exercise

Conditionals

What will this conditional expression return? Run it from the console.

```
x <- c(1,2,-3,4)
if(all(x>0)){
  print("All Positives")
} else{
  print("Not All Positives")
}
```

Instructions

50 XP

Possible answers

- All Positives
- Not All Positives
- N/A
- None of the above

R Console

```
> x <- c(1,2,-3,4)
  if(all(x>0)){
    print("All Positives")
  } else{
    print("Not All Positives")
  }
[1] "Not All Positives"

>
```
