

## Exercise

## Integers and Numerics

Let's confirm that `1L` is an *integer* not a *numeric*.

## Instructions

100 XP

Confirm that the `class` of `1` is *numeric* and the `class` of `1L` is *integer*.

Take Hint (-30 XP)

## script.R

```
1 # Check the class of 1, assigned to the object a
2 class(1)
3
4 # Confirm the class of 1L is integer
5 class(1L)
```
